

Parks Risk Management Education & Training

Risk Management education for Parks and Recreation has long been one of the staple programs over the past 20 plus years. Our support is in the form of our own risk management training offerings, speaker sponsorships and limited reimbursement for certifications and accreditations. Most notable, our Risk Management staff are sought out every year to provide their expertise to parks professionals at member locations, local parks and recreation workshops, as well as regional and national parks schools. WCIA COMPACT Training credit applies to all of the education platforms listed below:

WCIA Trainings for Parks staff:

- WCIA Parks Risk Management 101
- WCIA Volunteer Risk Management 101

If you are interested in hosting a session contact memberservices@wciapool.org

WCIA Reimbursement Programs for Parks:

- CAPRA – Commission for Accreditation of Parks and Recreation
- NRPA-CPRP – Certified Parks and Recreation Professional or Executive
- CPSI - Certified Playground Safety Inspector Certification
- CPO – Certified Pool Operator
- AFO – Aquatic Facility Operator
- ISA – International Society of Arboriculture
- INPRA – Pacific Northwest Resource Management School
- WRPA Business Institute
- IPM – WSU Integrated Pest Management Program
