

# Anti-harassment training courses for 2018

By Patti Crane

WCIA is happy to promote two methods of obtaining anti-harassment education for your entity.

## In Person Training

There are four host locations currently posted for registration for your management/supervisory staff to attend the anti-harassment courses. Our May 2 Full Board Education session in Yakima will act as the kick-off course. Attendance is encouraged as these particular trainings serve as a refresher and also target areas of risk management concern specific to management.

To access registration and course locations, click on the link below, filter by Personnel Employment and check out the months of June and September for training locations of:

[Promoting a Workplace Free of Harassment Discrimination and Retaliation for Managers and Supervisors](#)

## Online Training

On April 18, we launched our online training version of Promoting a Workplace Free of Harassment, Discrimination and Retaliation for all staff. This updated version replaces the previous anti-harassment trainings and provides separate courses for employees and management staff. Both courses are available through LocalGovU.

To access the courses, simply log onto your LocalGovU account by clicking on the provided link and enter your login credentials: <http://www.localgovu.com/products/learn/?t=wcia>.
