

# Supervisor Training & Education Pathways Brochure

By Patti Crane

WCIA has learned through years of experience with pre-defense assistance, handling claims and defending litigation that frontline supervisors are key to mitigating and hopefully eliminating employment practices exposures. While education for supervisors has been a focus for several years, the inquiries for supervisor trainings have recently increased giving Member Services an opportunity to develop a new [Supervisor Training & Education Pathways \(STEP\) brochure](#).

This STEP brochure will assist members in creating their internal supervisor training programs, utilizing WCIA free trainings. The STEP guide provides links to read course descriptions as well as a link to navigate to the WCIA Cvent Training Calendar to register for current training offerings.

We encourage sharing this with your supervisory staff! Please feel free to contact the WCIA Member Services Team at [memberservices@wciapool.org](mailto:memberservices@wciapool.org) with any questions.
